

CORPORATE ACTIVITY & STRATEGY

With 80,000 employees and operations in 75 countries, Lafarge holds top ranking positions in each of its four divisions : Cement, Aggregates & Concrete, Roofing, Gypsum, thus offering all construction industry sectors a comprehensive range of products and solutions. The growth of the world leader in building materials is founded on a sustainable development policy: Group know-how encompasses industrial efficiency, value creation while respecting people and cultures, protection of the environment, preservation of natural resources and energy.

THE WORLD LEADER IN CONSTRUCTION MATERIALS

▪ World N°1 in Cement

Wide range of cements, hydraulic binders and lime for building, renovation and public works.

▪ World N°2 in Aggregates & Concrete

Range of aggregates, standard concrete, « specialty » concrete (such as ready to use or prefabricated) for civil engineering, for roads and for buildings.

▪ World N°1 in Roofing

Comprehensive offer of roofing products (concrete/clay roof tiles), accessories and chimney systems.

▪ World N°3 in Gypsum

Gypsum blocks and wallboard, plaster coating for finishing works for all kinds of buildings, be the new constructions or renovations.
